

LP200 Series

Low profile LED beacons

Federal Signal Vama presents the warning light LP200 Series, that effectively combines a great luminosity with a compact and aerodynamic design.

The light of the LEDs reflected through the lens provides an exceptional light beam with superior off-axis warning, eliminating any dark spots.

The LP200 Series is the only LED warning light with the R65 class 2 in rotating mode approved.

DAY/NIGHT AUTOMATIC
FUNCTION

360° LIGHT DISTRIBUTION: Specially designed to offer 360° visibility.

BITENSION: The LP200 Series can be connected in 12V or 24V.

PHOTOCELL SENSOR: For standard version, due to the photocell sensor included inside the LP200, the day/night function is changed automatically. This allows to be permanently adapted to lighting conditions.

SYNCHRONIZABLE: Synchronizable with 8 warning lights of the LP200 Series.

CRUISE MODE: Availability of cruise mode included.

PROTECTION AGAINST DUST AND WATER: LP200 Series according with IP66 and IPX9 dust and water protection grades.

APPROVALS: The LP200 Series is approved according to European Standard R65 and complies with the R10 Electromagnetic Compatibility Directive.
